Rotary Youth Leadership Award

Supported by: District Youth Team, District Peace Building and Conflict Resolution

Bhoomi Poojan Global Grant Project

Polio Vaccination Drive

The Rotary Polio Vaccination Program is a global initiative spearheaded by Rotary International as part of the Global Polio Eradication Initiative (GPEI). Established in 1985 with the launch of the PolioPlus program, Rotary's effort has been a cornerstone in the fight to eradicate polio worldwide.

Rotary has contributed over \$2.1 billion and countless volunteer hours to immunize more than 2.5 billion children in 122 countries. Our club enthusiastically participated in the same and immunised approximately 400 children this year.

Environment Seminar

In a powerful convergence of environmental advocacy and celebration of women's leadership, the Rotary Club of Baramati, along with Rotary International District 3131, supported by Environment Avenue, hosted a dynamic Environment Seminar . This seminar not only celebrated the achievements of women in environmental conservation but also served as a platform for sharing innovative ideas and fostering collaboration, echoing Rotary's ethos of service above self.

Bone Marrow Density Camp

Bone Marrow Density Camp for senior citizens was organised by our club. The event was designed to raise awareness about osteoporosis and provide essential health services to our elderly population. This initiative received an overwhelming response, from senior citizens participating and benefiting from the free bone density screenings and consultations provided. The primary goal of the camp was to screen for osteoporosis, a condition that weakens bones and increases the risk of fractures, which is particularly prevalent among the elderly. By identifying individuals at risk, we aimed to facilitate early intervention and promote better bone health in our community.

Distribution Of Incinerators

The distribution and utilization of incinerators, specifically designed for waste management, play a critical role in protecting the environment by reducing the volume of waste, generating energy, and minimizing the reliance on landfills. To take care of our city's environment we distributed 80 incinerators to various schools ,colleges and hostels .

Fellowship at Darekarwada

Assimilation of Members with family plays the key role for the club's success and growth. We arrange various events like trips, movies , cultural activities and enjoy thoroughly. This year we visited Darekarwada where rain dance , boating , games etc were experienced by the Rotary family.

INSTALLATION OF ROTARACT CLUBS

We are thrilled to announce the successful installation of two new Institute-based Rotaract Clubs at This momentous occasion marks a significant step forward in fostering leadership, community service, and professional development among students.

The installation of these two Rotaract Clubs signifies our commitment to nurturing socially responsible and proactive leaders within our community. Let us all join hands to support and celebrate the journey of these new Rotaract Clubs as they strive to make a difference in the world!

Thank You!
